## **The Story about Little Troll**

**Long long long inside the forest a little troll called Little Troll is living.**

**Little Troll is called Little Troll, as when he was born, he was quite little.**

**There are no human beings coming that long inside the forest, and there is nearly no trolls too - only Little Troll and troll father and troll mother.**

**Therefore nearly every day - Little Troll has to play by himself.**

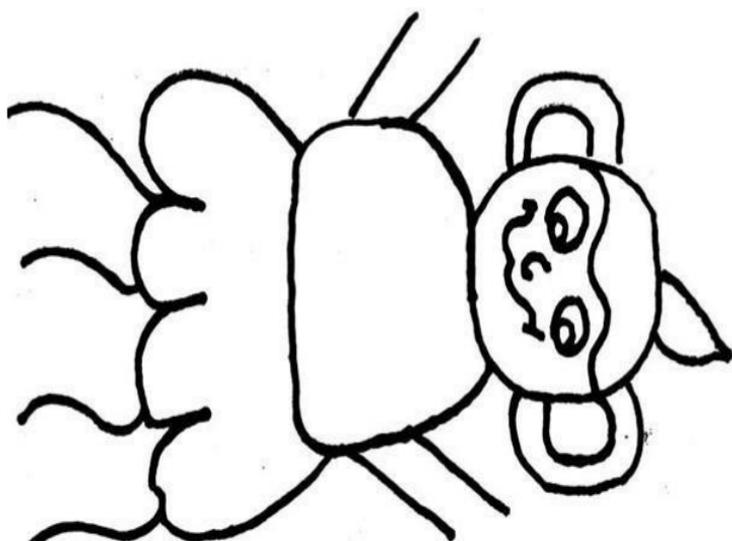

**Do you have some friends coming to play?**

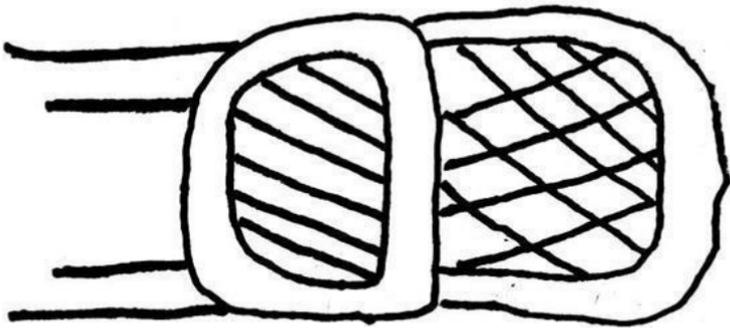

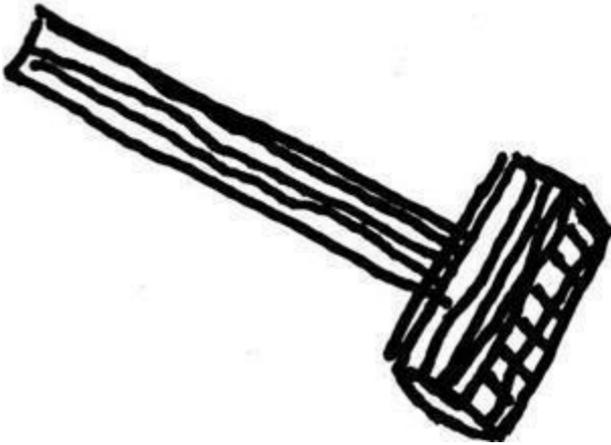

**Little Troll has a mouse Squeak, which he is often playing with.**

**Troll mother does not like Squeak, as she hates mice.**

**She is climbing up on a chair - if Squeak is out of its cage.**

**All of her hair is bristling and she is screaming very very high.**

**Therefore all of the trolls have a rule – Little Troll and Squeak are supposed to be in Little Trolls room playing.**

**Trolls do not live in a house like you and I - they live in a cave.**

**Troll mother herself has been sewing all of the curtains to the cave.**

**She has been sewing them out of an old cloth - which troll father has found out in the forest.**

**The curtains are red and white -like the Danish flag.**

**Do you know the Danish flag?**

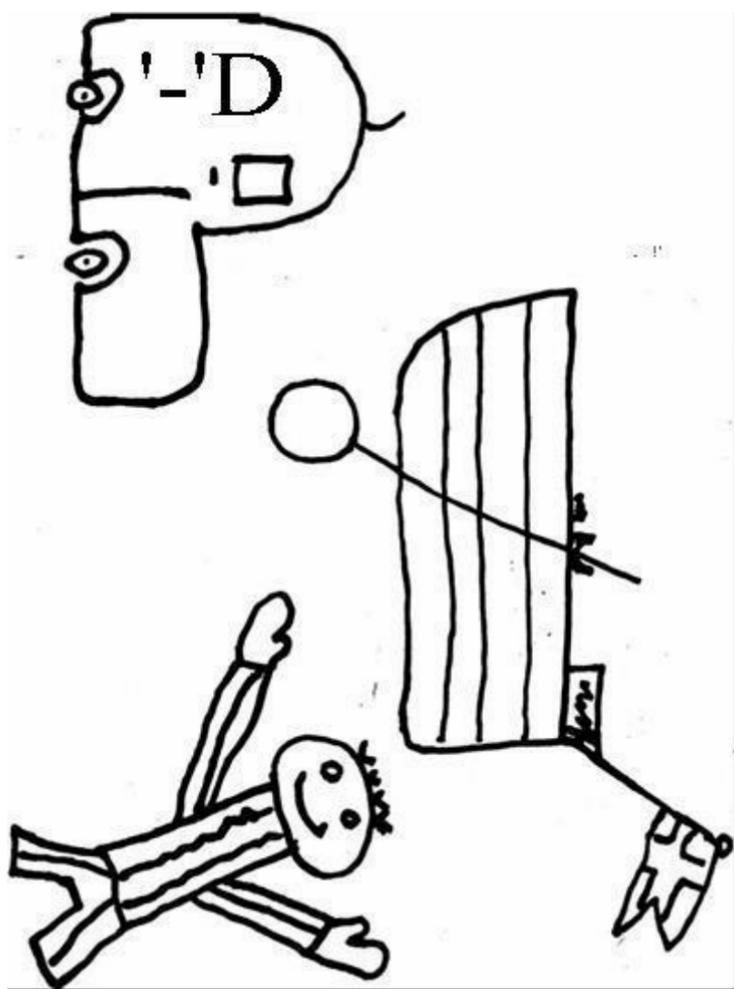

**How your flag is look like?**

**In the cave - all of the furnitures have been made out of wood by troll father - he is quite good doing that kind of stuff.**

**Do you have any furniture out of wood in your house - and if you have, which colour do they have?**

**Troll father has also made all toys - which Little Troll does have.**

**Little Troll has a car - a boat - and some wooden animals.**

**Little Troll loves to play with especially the animals out of wood- he can play for many hours with them.**

**There is an owl, a fox and a hare.**

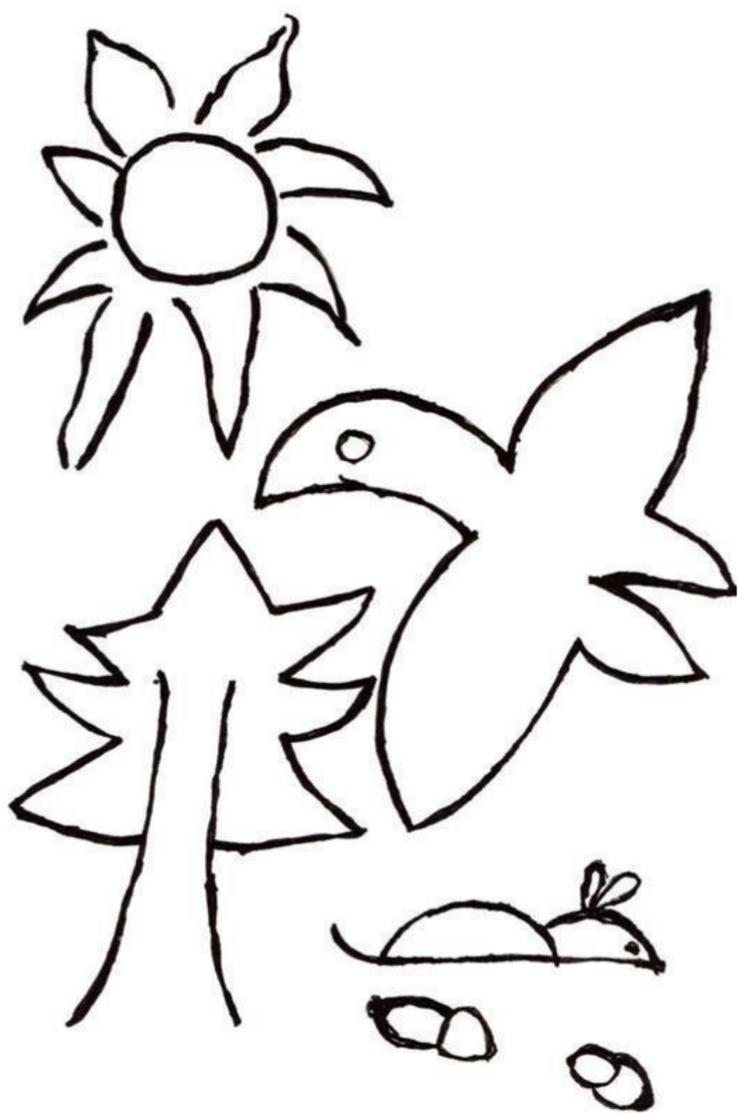

**Do you know some of these animals?**

**They are animals, who are living in the forest.**

**Do you know other animals?**

**Or better – do you have an animal  
yourself?**

**Little Troll also loves to play with the men made out of wood.**

**May you have seen Emil from Lønneberg - who made the men out of wood - when he had been naughty?**

**Him you might be able to see on TV - he is from Sweden.**

**Are you sometimes being naughty?  
What your father or mother do then?**

**Sometimes Little Troll could be really naughty.**

**It was not really that good - as troll father scolded like a mad - he turned as red as a tomato in his head.**

**“Oh” - it was definitely no fun.**

**May your dad get mad and red-headed?**

**If he may, then it's probably because you've been naughty - or your sister - or brother - if you otherwise have such one.**

**Little Troll had no siblings, as you may already know, he was completely alone with troll father and troll mother, so he had often to play by himself, or with the mouse Squeak.**

**Little Troll had no friends, as no trolls lived in near of the cave. .**

**However - Little Troll did not feel sorry, as he did not know - what friends are actually.**

**Do you have some friends and are they coming playing?**

**Or maybe you go to nursery with a lot of kids?**

**In the forest, there is not a troll nursery - however there are very many trolls.**

**Some children are afraid of trolls, but there is not any reason for that, as trolls are one of the sweetest found.**

**Trolls would never make people hurt, they are so peaceful so peaceful.**

**You know actually, how a troll looks like?**

**You maybe know, but for you, who do not know, I will actually go and tell it.**

**A troll looks actually almost like a human being.**

**A troll has long ears and big beautiful eyes - a great big nose and a long long tail.**

**Trolls have fur and are not as high - they are plump - and finally they often wear breeches with suspenders.**

**Some trolls only buttons one suspender -  
I do not know why.**

**Maybe it's because it's troll mode.**
